Good morning,

Today I was up at 4am to let our dogs out. I heard a female LAPD on the loud speaker, telling trespassers to get down. At four in the morning!!!

They were probably the same disrespectful turds that have tagged our historic wall that separates upper and lower Mulholland.

We are trying to sell our house. What will this nastiness do to our property values?! Not to mention that we were forced to take our house off the market for the holiday season due to the total mismanagement of this complete chaos in our neighborhood. So now your lack of action is interfering with free enterprise.

These are the upstanding members of our community, that are attracted to our neighborhood. They know they can get away with this.

Heather
